Welcome, GAME CREATOR!

Today you are going to become a
real game developer!

You will learn how to create a fun
Chase Game in Scratch where one
character chases another.

By the end of the workshop,
you will have:

Created your own game

Added characters (sprites)

Added movement controls

Tested your game

Customized your game

What is Scratch?

Scratch is a **coding platform**
where you can create:

Games

Stories

Animations

Music Projects

Millions of children around
the world use Scratch to
learn **coding** and **creativity**.

★ My Goal Today ★

I want my game to be:

☐

Funny

☐

Fast-Paced

☐

Challenging

☐

Educational

☐

Creative

☐

Super Cool

Meet My GAME CHARACTERS!

Every great game needs great characters!

Main Character
(The Chaser)

Draw your character below:

Character Name: _____

Target Character
(The Runner)

Draw your character below:

Character Name: _____

BONUS QUESTION

Why is the chaser chasing the runner?

DESIGN YOUR GAME WORLD!

Where will your game take place?

Space

Jungle

Ocean

School

Castle

City

Farm

My Own Idea

DRAW YOUR BACKGROUND

GAME NAME

My Game Title:

TAGLINE

Example:

"Catch the Mouse Before Time Runs Out!"

My Tagline:

SCRATCH DETECTIVE CHALLENGE

Can you solve these mysteries?

1 MATCH THE WORD TO ITS MEANING

WORD

Sprite

Backdrop

Event

Loop

Motion

MEANING

- ☐ The character
- ☐ Something that repeats
- ☐ The background
- ☐ Starts an action
- ☐ Makes things move

2 CIRCLE THE THINGS YOU CAN ADD IN SCRATCH

Cat

Car

Tree

Alien

Castle

Sound

(All of them!)

3 FUN FACT

Did you know?

The Scratch mascot is a cat named **Scratch Cat!**

Hi!

when clicked

forever

move 10 steps

say Hello!

PREDICT THE CODE!

Game developers think before they code.

```
when clicked
  move 10 steps
  say Hello!
```

1 CHALLENGE 1

If we change:

move 10 steps

to

move 20 steps

What will happen?

- ☐ Character moves slower
- ☐ Character moves faster
- ☐ Nothing changes

2 CHALLENGE 2

If we make:

wait 2 seconds

into

wait 1 second

What happens?

3 CHALLENGE 3

If a sprite touches another sprite:

What should happen?

MY PREDICTION SCORE

Correct Answers:

/ 3

BUILD YOUR CHASE GAME!

As you follow the workshop, tick each box:

- ☐  1 Open Scratch
- ☐  2 Choose a Background
- ☐  3 Add Chaser Sprite
- ☐  4 Add Runner Sprite
- ☐  5 Make Chaser Move
- ☐  6 Make Runner Move

☐ 7 Test the Game

☐ 8 Fix Errors

☐ 9 Add Sound

☐ 10 Add Winning Message

☐ 11 Save Project

BIGGEST CHALLENGE I FACED

HOW I SOLVED IT

BECOME A GAME DESIGNER!

Now improve your game!

Choose at least **THREE** upgrades.

forever

change score by 1

★ CHOOSE AT LEAST THREE UPGRADES ★

☐ Add a Score

SCORE
150

☐ Add a Timer

☐ Add Sound Effects

☐ Add New Background

☐ Add More Characters

☐ Add Obstacles

☐ Add Lives

☐ Add Levels

☐ Add a Power-Up

☐ Create My Own Feature

MY BEST UPGRADE

DRAW YOUR IMPROVED GAME ★

MY GAME DEVELOPER CERTIFICATE

I DID IT!

Today I created my own Scratch game.

WHAT I LEARNED

- | | |
|--|--|
| ☐ Sprites | ☐ Loops |
| ☐ Backdrops | ☐ Game Design |
| ☐ Motion Blocks | ☐ Problem Solving |
| ☐ Events | ☐ Creativity |

MY FAVORITE PART

MY NEXT SCRATCH PROJECT WILL BE

GAME CREATOR PLEDGE

I promise to:

- ☒ Keep creating
- ☒ Keep learning
- ☒ Keep experimenting
- ☒ Never give up when my code has bugs
- ☒ Use my creativity to build amazing things

when clicked

forever

move 10 steps

say Hello!

First Bingo wins applause!

CONGRATULATIONS, SCRATCH GAME CREATOR!

You have taken your first step
into the exciting world of
coding and **game development**.

Keep building,  keep exploring, and
keep creating!
