

Issue: Account Dropdown Visible Without Login

When a user visits the website without logging in, the account dropdown (Dashboard, View Profile, Logout) is visible.

Current Behavior:

Non-logged-in users can see Dashboard, View Profile, and Logout. Clicking Logout then changes it to a Login button.

Expected Behavior:

If the user is not logged in, only the **Login** button should be displayed. The account dropdown should appear only after successful login.

Customer Account –Issues Report

1 Sign Up – Email Verification Issue

Issue: Email verification is not sent during sign-up.
User account is created and logged in without verifying email.

2 Search Page (/search)

Issue: Search functionality is not working.

3 Favorite Button – Search Page

Issue: Heart (favorite) icon does not work on the /search page.

4 Favorite Button – Event Details (events/:id)

Issues:

- Heart icon turns red when clicked but cannot remove from favorites.
 - Favorite icon toggle is not functioning properly.
-

5 Favorites Page (/favorites)

Issues:

- Event images are not visible.
- Clicking “View Details” shows error: *Event not found*.

6 Event Details Page (events/:id)

Issues:

- Map is not getting displayed.
 - “Get Direction” is not working.
 - “Share Direction” is not working.
 - Event Organizer “View Profile” is not working.
-

7 Booking & Payment (/booking)

Issues:

- Payment process is not working.
 - Confirmation green tick appears before completing payment.
-

8 Events Route Not Accessible

- Issue: The `/events/` route is not accessible and does not load properly.
-

Teacher - Issues Report

1 Create Event Page

Route: `/teacher/events/create`

Issue: Unable to create an event. Page is not functioning properly.

2 Teacher Profile Page

Route: `/teacher/profile`

Issues: Cannot upload profile photo, no option to upload cover image, bank details section missing, payment settings option not available.

3 Missing Routes

Issues: /teachers , /teachers/:id route not available, /teaching-event , /teaching-event/:id route not available.

4 Teacher Dashboard Dropdown

After login as Teacher, the top-right dropdown does not show: My Teaching-Events, Create Teaching-Event, Bookings, Analytics, Teacher Settings, My Account, My Bookings, Favorites.

5 Event Creation Form – Section Order

Issue: In the event creation form, the **Syllabus** section appears after **Location & SEO**. The Syllabus section should be positioned before Location & SEO for proper logical flow.

6 Teaching Event Upload Section Missing

Issue: There is no section or option available for uploading or managing teaching events in the Teacher dashboard.

Admin Panel – Functional Issues Report

1 Admin Dashboard – Total User Count

Issue: Total user count displayed in /admin dashboard is incorrect.

2 Create User Button Not Working

Issue: /admin/users/create is not working when accessed from the Admin Dashboard page, but it works correctly from the “Add User” button in the /admin/users page.

3 Events Page – Action Buttons UI

Issue: In /admin/events, the action buttons are very small and not clearly visible, affecting usability.
