

Gema Event Management Platform

API documentation for Gema Event Management Platform

Version: 1.0.0

Servers

- <http://localhost:8000> - Development server

Endpoints

/categories/:id/toggle-status

PATCH

Summary: PATCH /categories/:id/toggle-status

Endpoint for PATCH /categories/:id/toggle-status

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/models

GET

Summary: GET /models

Endpoint for GET /models

Responses:

- **200:** Successful response

/stats

GET

Summary: GET /stats

Endpoint for GET /stats

Responses:

- **200:** Successful response

USE

Summary: USE /stats

Endpoint for USE /stats

Responses:

- **200:** Successful response
-

/validate

POST

Summary: POST /validate

Endpoint for POST /validate

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/execute

POST

Summary: POST /execute

Endpoint for POST /execute

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/export/Category

POST

Summary: POST /export/Category

Endpoint for POST /export/Category

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/export/User

POST

Summary: POST /export/User

Endpoint for POST /export/User

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/export/:model**POST**

Summary: POST /export/:model

Endpoint for POST /export/:model

Parameters:

Name	In	Type	Required	Description
model path	string	Yes		Path parameter: model

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/bulk**PATCH**

Summary: PATCH /bulk

Endpoint for PATCH /bulk

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

POST

Summary: POST /bulk

Endpoint for POST /bulk

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/**GET**

Summary: GET /

Endpoint for GET /

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

POST

Summary: POST /

Endpoint for POST /

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

USE

Summary: USE /

Endpoint for USE /

Responses:

- **200:** Successful response
-

/:id**GET**

Summary: GET /:id

Endpoint for GET /:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

PUT

Summary: PUT /:id

Endpoint for PUT /:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

DELETE

Summary: DELETE /:id

Endpoint for DELETE /:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

PATCH

Summary: PATCH /:id

Endpoint for PATCH /:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/:id/events

POST

Summary: POST /:id/events

Endpoint for POST /:id/events

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/events/:eventId**DELETE**

Summary: DELETE /:id/events/:eventId

Endpoint for DELETE /:id/events/:eventId

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id
eventId	path	string	Yes	Path parameter: eventId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/commissions**GET**

Summary: GET /commissions

Endpoint for GET /commissions

Responses:

- **200:** Successful response
-

POST

Summary: POST /commissions

Endpoint for POST /commissions

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/commissions/:id**GET**

Summary: GET /commissions/:id

Endpoint for GET /commissions/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

PUT

Summary: PUT /commissions/:id

Endpoint for PUT /commissions/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

DELETE

Summary: DELETE /commissions/:id

Endpoint for DELETE /commissions/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/commissions/:id/set-default

PUT

Summary: PUT /commissions/:id/set-default

Endpoint for PUT /commissions/:id/set-default

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/commission-templates

GET

Summary: GET /commission-templates

Endpoint for GET /commission-templates

Responses:

- **200:** Successful response
-

/commission-transactions**GET**

Summary: GET /commission-transactions

Endpoint for GET /commission-transactions

Responses:

- **200:** Successful response
-

/commission-transactions/:id**GET**

Summary: GET /commission-transactions/:id

Endpoint for GET /commission-transactions/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/commission-transactions/approve**PUT**

Summary: PUT /commission-transactions/approve

Endpoint for PUT /commission-transactions/approve

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/commission-transactions/:id/reject**PUT**

Summary: PUT /commission-transactions/:id/reject

Endpoint for PUT /commission-transactions/:id/reject

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/commission-transactions/:id/recalculate

PUT

Summary: PUT /commission-transactions/:id/recalculate

Endpoint for PUT /commission-transactions/:id/recalculate

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/commission-stats

GET

Summary: GET /commission-stats

Endpoint for GET /commission-stats

Responses:

- **200:** Successful response

/commission-analytics

GET

Summary: GET /commission-analytics

Endpoint for GET /commission-analytics

Responses:

- **200:** Successful response

/commission-pending

GET

Summary: GET /commission-pending

Endpoint for GET /commission-pending

Responses:

- **200:** Successful response
-

/commission-batch-calculate

POST

Summary: POST /commission-batch-calculate

Endpoint for POST /commission-batch-calculate

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/commission-bulk-approve

POST

Summary: POST /commission-bulk-approve

Endpoint for POST /commission-bulk-approve

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/commission-bulk-reject

POST

Summary: POST /commission-bulk-reject

Endpoint for POST /commission-bulk-reject

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/commission-export

GET

Summary: GET /commission-export

Endpoint for GET /commission-export

Responses:

- **200:** Successful response
-

/activity

GET

Summary: GET /activity

Endpoint for GET /activity

Responses:

- **200:** Successful response
-

/top-performers

GET

Summary: GET /top-performers

Endpoint for GET /top-performers

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/system-health

GET

Summary: GET /system-health

Endpoint for GET /system-health

Responses:

- **200:** Successful response
-

/vendors

GET

Summary: GET /vendors

Endpoint for GET /vendors

Responses:

- **200:** Successful response
-

USE

Summary: USE /vendors

Endpoint for USE /vendors

Responses:

- **200:** Successful response
-

/:id/vendor

PUT

Summary: PUT /:id/vendor

Endpoint for PUT /:id/vendor

Parameters:

Name	In	Type	Required	Description
------	----	------	----------	-------------

id path string Yes Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/restore

PUT

Summary: PUT /:id/restore

Endpoint for PUT /:id/restore

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/approve

PUT

Summary: PUT /:id/approve

Endpoint for PUT /:id/approve

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/reject

PUT

Summary: PUT /:id/reject

Endpoint for PUT /:id/reject

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/toggle-featured

PUT

Summary: PUT /:id/toggle-featured

Endpoint for PUT /:id/toggle-featured

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/reviews/pending

GET

Summary: GET /reviews/pending

Endpoint for GET /reviews/pending

Responses:

- **200:** Successful response

/flagged

GET

Summary: GET /flagged

Endpoint for GET /flagged

Responses:

- **200:** Successful response

/review/:id

POST

Summary: POST /review/:id

Endpoint for POST /review/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/vendor-earnings**GET****Summary:** GET /vendor-earnings

Endpoint for GET /vendor-earnings

Responses:

- **200:** Successful response
-

/vendor-earnings/:vendorId**GET****Summary:** GET /vendor-earnings/:vendorId

Endpoint for GET /vendor-earnings/:vendorId

Parameters:

Name	In	Type	Required	Description
vendorId	path	string	Yes	Path parameter: vendorId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/payout-requests**GET****Summary:** GET /payout-requests

Endpoint for GET /payout-requests

Responses:

- **200:** Successful response
-

/payout-requests/:id**GET****Summary:** GET /payout-requests/:id

Endpoint for GET /payout-requests/:id

Parameters:

Name	In	Type	Required	Description
------	----	------	----------	-------------

id path string Yes Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/payout-requests/:id/approve

PUT

Summary: PUT /payout-requests/:id/approve

Endpoint for PUT /payout-requests/:id/approve

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/payout-requests/:id/reject

PUT

Summary: PUT /payout-requests/:id/reject

Endpoint for PUT /payout-requests/:id/reject

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/payout-requests/:id/process

PUT

Summary: PUT /payout-requests/:id/process

Endpoint for PUT /payout-requests/:id/process

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/payout-requests/bulk-approve

POST

Summary: POST /payout-requests/bulk-approve

Endpoint for POST /payout-requests/bulk-approve

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/payout-requests/bulk-reject

POST

Summary: POST /payout-requests/bulk-reject

Endpoint for POST /payout-requests/bulk-reject

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/payout-stats

GET

Summary: GET /payout-stats

Endpoint for GET /payout-stats

Responses:

- **200:** Successful response
-

/payout-analytics

GET

Summary: GET /payout-analytics

Endpoint for GET /payout-analytics

Responses:

- **200:** Successful response
-

/payout-export

GET

Summary: GET /payout-export

Endpoint for GET /payout-export

Responses:

- **200:** Successful response
-

/:id/visibility

PATCH

Summary: PATCH /:id/visibility

Endpoint for PATCH /:id/visibility

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/display-orders

PATCH

Summary: PATCH /display-orders

Endpoint for PATCH /display-orders

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/dashboard

GET

Summary: GET /dashboard

Endpoint for GET /dashboard

Responses:

- **200:** Successful response
-

/transactions

GET

Summary: GET /transactions

Endpoint for GET /transactions

Responses:

- **200:** Successful response
-

POST

Summary: POST /transactions

Endpoint for POST /transactions

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/transactions/:id

PUT

Summary: PUT /transactions/:id

Endpoint for PUT /transactions/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/payouts/process

POST

Summary: POST /payouts/process

Endpoint for POST /payouts/process

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/analytics/subscriptions

GET

Summary: GET /analytics/subscriptions

Endpoint for GET /analytics/subscriptions

Responses:

- **200:** Successful response
-

/analytics/advertising

GET

Summary: GET /analytics/advertising

Endpoint for GET /analytics/advertising

Responses:

- **200:** Successful response
-

/settings

GET

Summary: GET /settings

Endpoint for GET /settings

Responses:

- **200:** Successful response
-

PUT

Summary: PUT /settings

Endpoint for PUT /settings

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/reports/generate

GET

Summary: GET /reports/generate

Endpoint for GET /reports/generate

Responses:

- **200:** Successful response
-

/settings/health

GET

Summary: GET /settings/health

Endpoint for GET /settings/health

Responses:

- **200:** Successful response
-

/app-settings

GET

Summary: GET /app-settings

Endpoint for GET /app-settings

Responses:

- **200:** Successful response
-

PUT

Summary: PUT /app-settings

Endpoint for PUT /app-settings

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/app-settings/email/test-connection

POST

Summary: POST /app-settings/email/test-connection

Endpoint for POST /app-settings/email/test-connection

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/app-settings/email/send-test

POST

Summary: POST /app-settings/email/send-test

Endpoint for POST /app-settings/email/send-test

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/dashboard-all

GET

Summary: GET /dashboard-all

Endpoint for GET /dashboard-all

Responses:

- **200:** Successful response
-

/teacher-earnings

GET

Summary: GET /teacher-earnings

Endpoint for GET /teacher-earnings

Responses:

- **200:** Successful response
-

/teacher-earnings/:teacherId

GET

Summary: GET /teacher-earnings/:teacherId

Endpoint for GET /teacher-earnings/:teacherId

Parameters:

Name	In	Type	Required	Description
teacherId	path	string	Yes	Path parameter: teacherId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/status

PUT

Summary: PUT /:id/status

Endpoint for PUT /:id/status

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

PATCH

Summary: PATCH /:id/status

Endpoint for PATCH /:id/status

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/active

PUT

Summary: PUT /:id/active

Endpoint for PUT /:id/active

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/suspend

PUT

Summary: PUT /:id/suspend

Endpoint for PUT /:id/suspend

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/payment-mode

PUT

Summary: PUT /:id/payment-mode

Endpoint for PUT /:id/payment-mode

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/subscription-status

PUT

Summary: PUT /:id/subscription-status

Endpoint for PUT /:id/subscription-status

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/role

PATCH

Summary: PATCH /:id/role

Endpoint for PATCH /:id/role

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/reset-password/initiate

POST

Summary: POST /:id/reset-password/initiate

Endpoint for POST /:id/reset-password/initiate

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/reset-password/confirm

POST

Summary: POST /:id/reset-password/confirm

Endpoint for POST /:id/reset-password/confirm

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/list

GET

Summary: GET /list

Endpoint for GET /list

Responses:

- **200:** Successful response

/click/:affiliateCode

POST

Summary: POST /click/:affiliateCode

Endpoint for POST /click/:affiliateCode

Parameters:

Name	In	Type	Required	Description
affiliateCode	path	string	Yes	Path parameter: affiliateCode

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/apply

POST

Summary: POST /apply

Endpoint for POST /apply

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/my

GET

Summary: GET /my

Endpoint for GET /my

Responses:

- **200:** Successful response
-

/profile

PUT

Summary: PUT /profile

Endpoint for PUT /profile

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

GET

Summary: GET /profile

Endpoint for GET /profile

Responses:

- **200:** Successful response
-

/generate-url

POST

Summary: POST /generate-url

Endpoint for POST /generate-url

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/dashboard/stats

GET

Summary: GET /dashboard/stats

Endpoint for GET /dashboard/stats

Responses:

- **200:** Successful response
-

/analytics/overview

GET

Summary: GET /analytics/overview

Endpoint for GET /analytics/overview

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/events

GET

Summary: GET /events

Endpoint for GET /events

Responses:

- **200:** Successful response
-

USE

Summary: USE /events

Endpoint for USE /events

Responses:

- **200:** Successful response
-

POST

Summary: POST /events

Endpoint for POST /events

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/orders

GET

Summary: GET /orders

Endpoint for GET /orders

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

USE

Summary: USE /orders

Endpoint for USE /orders

Responses:

- **200:** Successful response
-

/tickets

GET

Summary: GET /tickets

Endpoint for GET /tickets

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

USE

Summary: USE /tickets

Endpoint for USE /tickets

Responses:

- **200:** Successful response
-

/users

GET

Summary: GET /users

Endpoint for GET /users

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/venues

GET

Summary: GET /venues

Endpoint for GET /venues

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

USE

Summary: USE /venues

Endpoint for USE /venues

Responses:

- **200:** Successful response
-

/revenue

GET

Summary: GET /revenue

Endpoint for GET /revenue

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/events/:eventId/performance

GET

Summary: GET /events/:eventId/performance

Endpoint for GET /events/:eventId/performance

Parameters:

Name	In	Type	Required	Description
eventId	path	string	Yes	Path parameter: eventId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/export

GET

Summary: GET /export

Endpoint for GET /export

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/active

GET

Summary: GET /active

Endpoint for GET /active

Responses:

- **200:** Successful response
-

/:id/impression

POST

Summary: POST /:id/impression

Endpoint for POST /:id/impression

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/click

POST

Summary: POST /:id/click

Endpoint for POST /:id/click

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/dismiss

POST

Summary: POST /:id/dismiss

Endpoint for POST /:id/dismiss

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/register

POST

Summary: POST /register

Endpoint for POST /register

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response

/register-admin

POST

Summary: POST /register-admin

Endpoint for POST /register-admin

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/login**POST**

Summary: POST /login

Endpoint for POST /login

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/logout**POST**

Summary: POST /logout

Endpoint for POST /logout

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/refresh-token**POST**

Summary: POST /refresh-token

Endpoint for POST /refresh-token

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/me**GET**

Summary: GET /me

Endpoint for GET /me

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/change-password

PUT

Summary: PUT /change-password

Endpoint for PUT /change-password

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/forgot-password

POST

Summary: POST /forgot-password

Endpoint for POST /forgot-password

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response

/reset-password

POST

Summary: POST /reset-password

Endpoint for POST /reset-password

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response

/verify-email

POST

Summary: POST /verify-email

Endpoint for POST /verify-email

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/resend-verification-email

POST

Summary: POST /resend-verification-email

Endpoint for POST /resend-verification-email

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/firebase

POST

Summary: POST /firebase

Endpoint for POST /firebase

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/addresses

POST

Summary: POST /addresses

Endpoint for POST /addresses

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/addresses/:addressIndex

PUT

Summary: PUT /addresses/:addressIndex

Endpoint for PUT /addresses/:addressIndex

Parameters:

Name	In	Type	Required	Description
addressIndex	path	string	Yes	Path parameter: addressIndex

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

DELETE

Summary: DELETE /addresses/:addressIndex

Endpoint for DELETE /addresses/:addressIndex

Parameters:

Name	In	Type	Required	Description
addressIndex	path	string	Yes	Path parameter: addressIndex

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/upload-avatar

POST

Summary: POST /upload-avatar

Endpoint for POST /upload-avatar

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/avatar

PUT

Summary: PUT /avatar

Endpoint for PUT /avatar

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

DELETE

Summary: DELETE /avatar

Endpoint for DELETE /avatar

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

POST

Summary: POST /avatar

Endpoint for POST /avatar

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/send-phone-verification

POST

Summary: POST /send-phone-verification

Endpoint for POST /send-phone-verification

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/verify-phone

POST

Summary: POST /verify-phone

Endpoint for POST /verify-phone

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/resend-phone-verification

POST

Summary: POST /resend-phone-verification

Endpoint for POST /resend-phone-verification

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/posts/:postId/comments

GET

Summary: GET /posts/:postId/comments

Endpoint for GET /posts/:postId/comments

Parameters:

Name	In	Type	Required	Description
postId	path	string	Yes	Path parameter: postId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

POST

Summary: POST /posts/:postId/comments

Endpoint for POST /posts/:postId/comments

Parameters:

Name	In	Type	Required	Description
postId	path	string	Yes	Path parameter: postId

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/comments/:commentId

PUT

Summary: PUT /comments/:commentId

Endpoint for PUT /comments/:commentId

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

DELETE

Summary: DELETE /comments/:commentId

Endpoint for DELETE /comments/:commentId

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/comments/:commentId/like

POST

Summary: POST /comments/:commentId/like

Endpoint for POST /comments/:commentId/like

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/comments/:commentId/dislike

POST

Summary: POST /comments/:commentId/dislike

Endpoint for POST /comments/:commentId/dislike

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/comments/:commentId/report

POST

Summary: POST /comments/:commentId/report

Endpoint for POST /comments/:commentId/report

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/comments/:commentId/replies

GET

Summary: GET /comments/:commentId/replies

Endpoint for GET /comments/:commentId/replies

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/comments/:commentId/approve

PUT

Summary: PUT /comments/:commentId/approve

Endpoint for PUT /comments/:commentId/approve

Parameters:

Name	In	Type	Required	Description
commentId	path	string	Yes	Path parameter: commentId

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/admin/posts/:postId/comments

GET

Summary: GET /admin/posts/:postId/comments

Endpoint for GET /admin/posts/:postId/comments

Parameters:

Name	In	Type	Required	Description
postId	path	string	Yes	Path parameter: postId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/featured

GET

Summary: GET /featured

Endpoint for GET /featured

Responses:

- **200:** Successful response
-

/popular

GET

Summary: GET /popular

Endpoint for GET /popular

Responses:

- **200:** Successful response
-

/recent

GET

Summary: GET /recent

Endpoint for GET /recent

Responses:

- **200:** Successful response
-

/categories

GET

Summary: GET /categories

Endpoint for GET /categories

Responses:

- **200:** Successful response
-

USE

Summary: USE /categories

Endpoint for USE /categories

Responses:

- **200:** Successful response
-

/:slug

GET

Summary: GET /:slug

Endpoint for GET /:slug

Parameters:

Name	In	Type	Required	Description
slug	path	string	Yes	Path parameter: slug

Responses:

- **200:** Successful response
- **404:** Resource not found

/:slug/related

GET

Summary: GET /:slug/related

Endpoint for GET /:slug/related

Parameters:

Name	In	Type	Required	Description
slug	path	string	Yes	Path parameter: slug

Responses:

- **200:** Successful response
- **404:** Resource not found

/:slug/like

POST

Summary: POST /:slug/like

Endpoint for POST /:slug/like

Parameters:

Name	In	Type	Required	Description
slug	path	string	Yes	Path parameter: slug

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:slug/share

POST

Summary: POST /:slug/share

Endpoint for POST /:slug/share

Parameters:

Name	In	Type	Required	Description
slug	path	string	Yes	Path parameter: slug

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/initiate

POST

Summary: POST /initiate

Endpoint for POST /initiate

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/confirm

POST

Summary: POST /confirm

Endpoint for POST /confirm

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/:id/cancel

PUT

Summary: PUT /:id/cancel

Endpoint for PUT /:id/cancel

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/roots

GET

Summary: GET /roots

Endpoint for GET /roots

Responses:

- **200:** Successful response
-

/search

GET

Summary: GET /search

Endpoint for GET /search

Responses:

- **200:** Successful response
-

USE

Summary: USE /search

Endpoint for USE /search

Responses:

- **200:** Successful response
-

/parent/:parentId

GET

Summary: GET /parent/:parentId

Endpoint for GET /parent/:parentId

Parameters:

Name	In	Type	Required	Description
parentId	path	string	Yes	Path parameter: parentId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/sort-order/bulk

PUT

Summary: PUT /sort-order/bulk

Endpoint for PUT /sort-order/bulk

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/update-counts

POST

Summary: POST /update-counts

Endpoint for POST /update-counts

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/logs

GET

Summary: GET /logs

Endpoint for GET /logs

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/summary

GET

Summary: GET /summary

Endpoint for GET /summary

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/:id/read

PATCH

Summary: PATCH /:id/read

Endpoint for PATCH /:id/read

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/responded

PATCH

Summary: PATCH /:id/responded

Endpoint for PATCH /:id/responded

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/my-history

GET

Summary: GET /my-history

Endpoint for GET /my-history

Responses:

- **200:** Successful response

/validate/:code

POST

Summary: POST /validate/:code

Endpoint for POST /validate/:code

Parameters:

Name	In	Type	Required	Description
code	path	string	Yes	Path parameter: code

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/:id/stats

GET

Summary: GET /:id/stats

Endpoint for GET /:id/stats

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/bulk/status

PUT

Summary: PUT /bulk/status

Endpoint for PUT /bulk/status

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/detect

GET

Summary: GET /detect

Endpoint for GET /detect

Responses:

- **200:** Successful response
-

/rates

GET

Summary: GET /rates

Endpoint for GET /rates

Responses:

- **200:** Successful response

/supported

GET

Summary: GET /supported

Endpoint for GET /supported

Responses:

- **200:** Successful response

/convert

POST

Summary: POST /convert

Endpoint for POST /convert

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response

/info/:code

GET

Summary: GET /info/:code

Endpoint for GET /info/:code

Parameters:

Name	In	Type	Required	Description
code	path	string	Yes	Path parameter: code

Responses:

- **200:** Successful response
- **404:** Resource not found

/refresh

POST

Summary: POST /refresh

Endpoint for POST /refresh

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/:employeeId

GET

Summary: GET /:employeeId

Endpoint for GET /:employeeId

Parameters:

Name	In	Type	Required	Description
employeeId path	string	Yes		Path parameter: employeeId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

PUT

Summary: PUT /:employeeId

Endpoint for PUT /:employeeId

Parameters:

Name	In	Type	Required	Description
employeeId path	string	Yes		Path parameter: employeeId

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

DELETE

Summary: DELETE /:employeeId

Endpoint for DELETE /:employeeId

Parameters:

Name	In	Type	Required	Description
employeeId path	string	Yes		Path parameter: employeeId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/assign-event

POST

Summary: POST /assign-event

Endpoint for POST /assign-event

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/remove-event

POST

Summary: POST /remove-event

Endpoint for POST /remove-event

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/events/:id/track-click

POST

Summary: POST /events/:id/track-click

Endpoint for POST /events/:id/track-click

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/events/:id/analytics

GET

Summary: GET /events/:id/analytics

Endpoint for GET /events/:id/analytics

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/vendor/events/:id/claim

POST

Summary: POST /vendor/events/:id/claim

Endpoint for POST /vendor/events/:id/claim

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response

/events/:id/cancellation-status

GET

Summary: GET /events/:id/cancellation-status

Endpoint for GET /events/:id/cancellation-status

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/events/:id/affected-orders

GET

Summary: GET /events/:id/affected-orders

Endpoint for GET /events/:id/affected-orders

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response

- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/events/:id/retry-notifications

POST

Summary: POST /events/:id/retry-notifications

Endpoint for POST /events/:id/retry-notifications

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/orders/:id/cancel

PUT

Summary: PUT /orders/:id/cancel

Endpoint for PUT /orders/:id/cancel

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/orders/:id/refund-status

GET

Summary: GET /orders/:id/refund-status

Endpoint for GET /orders/:id/refund-status

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Summary: GET /robots.txt

Endpoint for GET /robots.txt

Responses:

- **200:** Successful response
-

/api/seo/debug-env

GET

Summary: GET /api/seo/debug-env

Endpoint for GET /api/seo/debug-env

Responses:

- **200:** Successful response
-

/api/seo/event/:id/structured-data

GET

Summary: GET /api/seo/event/:id/structured-data

Endpoint for GET /api/seo/event/:id/structured-data

Parameters:

Name	In	Type	Required	Description
------	----	------	----------	-------------

id path string Yes Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/api/seo/blog/:slug/structured-data

GET

Summary: GET /api/seo/blog/:slug/structured-data

Endpoint for GET /api/seo/blog/:slug/structured-data

Parameters:

Name	In	Type	Required	Description
slug	path	string	Yes	Path parameter: slug

Responses:

- **200:** Successful response
- **404:** Resource not found

/api/seo/meta-data/event/:id

GET

Summary: GET /api/seo/meta-data/event/:id

Endpoint for GET /api/seo/meta-data/event/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/api/seo/meta-data/blog/:slug

GET

Summary: GET /api/seo/meta-data/blog/:slug

Endpoint for GET /api/seo/meta-data/blog/:slug

Parameters:

Name	In	Type	Required	Description
slug	path	string	Yes	Path parameter: slug

Responses:

- **200:** Successful response
- **404:** Resource not found

/api/seo/meta-data/category/:id

GET

Summary: GET /api/seo/meta-data/category/:id

Endpoint for GET /api/seo/meta-data/category/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/api/seo/organization

GET

Summary: GET /api/seo/organization

Endpoint for GET /api/seo/organization

Responses:

- **200:** Successful response
-

/api/seo/breadcrumb

POST

Summary: POST /api/seo/breadcrumb

Endpoint for POST /api/seo/breadcrumb

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/:page

GET

Summary: GET /:page

Endpoint for GET /:page

Parameters:

Name	In	Type	Required	Description
page	path	string	Yes	Path parameter: page

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

PUT

Summary: PUT /:page

Endpoint for PUT /:page

Parameters:

Name	In	Type	Required	Description
page	path	string	Yes	Path parameter: page

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

DELETE

Summary: DELETE /:page

Endpoint for DELETE /:page

Parameters:

Name	In	Type	Required	Description
page	path	string	Yes	Path parameter: page

Responses:

- **200:** Successful response
- **404:** Resource not found

/overview

GET

Summary: GET /overview

Endpoint for GET /overview

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/stripe/connect

POST

Summary: POST /stripe/connect

Endpoint for POST /stripe/connect

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

DELETE

Summary: DELETE /stripe/connect

Endpoint for DELETE /stripe/connect

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/stripe/connect/status**GET****Summary:** GET /stripe/connect/status

Endpoint for GET /stripe/connect/status

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/stripe/connect/refresh**POST****Summary:** POST /stripe/connect/refresh

Endpoint for POST /stripe/connect/refresh

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/stripe/keys**PUT****Summary:** PUT /stripe/keys

Endpoint for PUT /stripe/keys

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/payment-mode**POST****Summary:** POST /payment-mode

Endpoint for POST /payment-mode

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/subscription

GET

Summary: GET /subscription

Endpoint for GET /subscription

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/subscription/pay

POST

Summary: POST /subscription/pay

Endpoint for POST /subscription/pay

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/subscription/history

GET

Summary: GET /subscription/history

Endpoint for GET /subscription/history

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/subscription/cancel

POST

Summary: POST /subscription/cancel

Endpoint for POST /subscription/cancel

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/bank-account

PUT

Summary: PUT /bank-account

Endpoint for PUT /bank-account

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/payout-preferences

PUT

Summary: PUT /payout-preferences

Endpoint for PUT /payout-preferences

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/commission/calculate

POST

Summary: POST /commission/calculate

Endpoint for POST /commission/calculate

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/history

GET

Summary: GET /history

Endpoint for GET /history

Responses:

- **200:** Successful response
-

/pending-earnings

GET

Summary: GET /pending-earnings

Endpoint for GET /pending-earnings

Responses:

- **200:** Successful response
-

/request

POST

Summary: POST /request

Endpoint for POST /request

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/requests/:id

GET

Summary: GET /requests/:id

Endpoint for GET /requests/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response

- **404:** Resource not found

DELETE

Summary: DELETE /requests/:id

Endpoint for DELETE /requests/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/payment-settings

GET

Summary: GET /payment-settings

Endpoint for GET /payment-settings

Responses:

- **200:** Successful response

PUT

Summary: PUT /payment-settings

Endpoint for PUT /payment-settings

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/subscription-status

GET

Summary: GET /subscription-status

Endpoint for GET /subscription-status

Responses:

- **200:** Successful response

/commission-history

GET

Summary: GET /commission-history

Endpoint for GET /commission-history

Responses:

- **200:** Successful response

/public/:id

GET

Summary: GET /public/:id

Endpoint for GET /public/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/:id/payment-info

GET

Summary: GET /:id/payment-info

Endpoint for GET /:id/payment-info

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/bookings/export

GET

Summary: GET /bookings/export

Endpoint for GET /bookings/export

Responses:

- **200:** Successful response
-

/bookings/import

POST

Summary: POST /bookings/import

Endpoint for POST /bookings/import

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/bookings/:id

GET

Summary: GET /bookings/:id

Endpoint for GET /bookings/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

PUT

Summary: PUT /bookings/:id

Endpoint for PUT /bookings/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/upload-media

POST

Summary: POST /upload-media

Endpoint for POST /upload-media

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/availability-hours

PUT

Summary: PUT /availability-hours

Endpoint for PUT /availability-hours

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/social-links**PUT**

Summary: PUT /social-links

Endpoint for PUT /social-links

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
-

/events/:id**GET**

Summary: GET /events/:id

Endpoint for GET /events/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

PUT

Summary: PUT /events/:id

Endpoint for PUT /events/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

DELETE

Summary: DELETE /events/:id

Endpoint for DELETE /events/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/events/:id/restore

PUT

Summary: PUT /events/:id/restore

Endpoint for PUT /events/:id/restore

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

/generate

POST

Summary: POST /generate

Endpoint for POST /generate

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/generate-missing

POST

Summary: POST /generate-missing

Endpoint for POST /generate-missing

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/verify-qr/:eventId?

POST

Summary: POST /verify-qr/:eventId?

Endpoint for POST /verify-qr/:eventId?

Parameters:

Name	In	Type	Required	Description
eventId	path	string	Yes	Path parameter: eventId

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/:ticketId/checkin

POST

Summary: POST /:ticketId/checkin

Endpoint for POST /:ticketId/checkin

Parameters:

Name	In	Type	Required	Description
ticketId	path	string	Yes	Path parameter: ticketId

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/user/my-tickets

GET

Summary: GET /user/my-tickets

Endpoint for GET /user/my-tickets

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions

Authentication: Required

/order/:orderId**GET**

Summary: GET /order/:orderId

Endpoint for GET /order/:orderId

Parameters:

Name	In	Type	Required	Description
orderId	path	string	Yes	Path parameter: orderId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/:ticketId/download**GET**

Summary: GET /:ticketId/download

Endpoint for GET /:ticketId/download

Parameters:

Name	In	Type	Required	Description
ticketId	path	string	Yes	Path parameter: ticketId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/:ticketId**GET**

Summary: GET /:ticketId

Endpoint for GET /:ticketId

Parameters:

Name	In	Type	Required	Description
ticketId	path	string	Yes	Path parameter: ticketId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/:ticketId/transfer

POST

Summary: POST /:ticketId/transfer

Endpoint for POST /:ticketId/transfer

Parameters:

Name	In	Type	Required	Description
ticketId	path	string	Yes	Path parameter: ticketId

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/:ticketId/resend

POST

Summary: POST /:ticketId/resend

Endpoint for POST /:ticketId/resend

Parameters:

Name	In	Type	Required	Description
ticketId	path	string	Yes	Path parameter: ticketId

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **403:** Forbidden - Insufficient permissions
- **404:** Resource not found

Authentication: Required

/files

USE

Summary: USE /files

Endpoint for USE /files

Responses:

- **200:** Successful response

/single

POST

Summary: POST /single

Endpoint for POST /single

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/multiple

POST

Summary: POST /multiple

Endpoint for POST /multiple

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/event-images

POST

Summary: POST /event-images

Endpoint for POST /event-images

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/venue-images

POST

Summary: POST /venue-images

Endpoint for POST /venue-images

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/document

POST

Summary: POST /document

Endpoint for POST /document

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/blog-featured-image

POST

Summary: POST /blog-featured-image

Endpoint for POST /blog-featured-image

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/blog-content-media

POST

Summary: POST /blog-content-media

Endpoint for POST /blog-content-media

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/file/:filename**DELETE**

Summary: DELETE /file/:filename

Endpoint for DELETE /file/:filename

Parameters:

Name	In	Type	Required	Description
filename	path	string	Yes	Path parameter: filename

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/info/:filename**GET**

Summary: GET /info/:filename

Endpoint for GET /info/:filename

Parameters:

Name	In	Type	Required	Description
filename	path	string	Yes	Path parameter: filename

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/list/:category**GET**

Summary: GET /list/:category

Endpoint for GET /list/:category

Parameters:

Name	In	Type	Required	Description
category	path	string	Yes	Path parameter: category

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

- **404:** Resource not found

Authentication: Required

/transform/:publicId

GET

Summary: GET /transform/:publicId

Endpoint for GET /transform/:publicId

Parameters:

Name	In	Type	Required	Description
publicId	path	string	Yes	Path parameter: publicId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/variations/:publicId

GET

Summary: GET /variations/:publicId

Endpoint for GET /variations/:publicId

Parameters:

Name	In	Type	Required	Description
publicId	path	string	Yes	Path parameter: publicId

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/batch

POST

Summary: POST /batch

Endpoint for POST /batch

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/provider

GET

Summary: GET /provider

Endpoint for GET /provider

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token

Authentication: Required

/enhanced-info/:identifier

GET

Summary: GET /enhanced-info/:identifier

Endpoint for GET /enhanced-info/:identifier

Parameters:

Name	In	Type	Required	Description
identifierpath	string	Yes		Path parameter: identifier

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/enhanced/:identifier

DELETE

Summary: DELETE /enhanced/:identifier

Endpoint for DELETE /enhanced/:identifier

Parameters:

Name	In	Type	Required	Description
identifierpath	string	Yes		Path parameter: identifier

Responses:

- **200:** Successful response
- **401:** Unauthorized - Invalid or missing authentication token
- **404:** Resource not found

Authentication: Required

/:vendorId/payment-info

GET

Summary: GET /:vendorId/payment-info

Endpoint for GET /:vendorId/payment-info

Parameters:

Name	In	Type	Required	Description
vendorIdpath	string	Yes		Path parameter: vendorId

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/upload-image

POST

Summary: POST /upload-image

Endpoint for POST /upload-image

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/business-hours

PUT

Summary: PUT /business-hours

Endpoint for PUT /business-hours

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/social-media

PUT

Summary: PUT /social-media

Endpoint for PUT /social-media

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/employees/export

POST

Summary: POST /employees/export

Endpoint for POST /employees/export

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/employees/:id

GET

Summary: GET /employees/:id

Endpoint for GET /employees/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

PUT

Summary: PUT /employees/:id

Endpoint for PUT /employees/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response
- **404:** Resource not found

DELETE

Summary: DELETE /employees/:id

Endpoint for DELETE /employees/:id

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Responses:

- **200:** Successful response
- **404:** Resource not found

/employees/:id/assign-event

POST

Summary: POST /employees/:id/assign-event

Endpoint for POST /employees/:id/assign-event

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/employees/:id/remove-event

POST

Summary: POST /employees/:id/remove-event

Endpoint for POST /employees/:id/remove-event

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/verify-phone/send

POST

Summary: POST /verify-phone/send

Endpoint for POST /verify-phone/send

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/verify-phone/confirm

POST

Summary: POST /verify-phone/confirm

Endpoint for POST /verify-phone/confirm

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/bank-details

PUT

Summary: PUT /bank-details

Endpoint for PUT /bank-details

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/documents

GET

Summary: GET /documents

Endpoint for GET /documents

Responses:

- **200:** Successful response

/documents/upload

POST

Summary: POST /documents/upload

Endpoint for POST /documents/upload

Request Body: Required

```
{
  // Request body schema
}
```

Responses:

- **200:** Successful response

/documents/:type

DELETE

Summary: DELETE /documents/:type

Endpoint for DELETE /documents/:type

Parameters:

Name	In	Type	Required	Description
type	path	string	Yes	Path parameter: type

Responses:

- **200:** Successful response
 - **404:** Resource not found
-

/stripe-connect/onboard**POST**

Summary: POST /stripe-connect/onboard

Endpoint for POST /stripe-connect/onboard

Request Body: Required

```
{  
  // Request body schema  
}
```

Responses:

- **200:** Successful response
-

/stripe-connect/status**GET**

Summary: GET /stripe-connect/status

Endpoint for GET /stripe-connect/status

Responses:

- **200:** Successful response
-

/venues/:id/track-click**POST**

Summary: POST /venues/:id/track-click

Endpoint for POST /venues/:id/track-click

Parameters:

Name	In	Type	Required	Description
id	path	string	Yes	Path parameter: id

Request Body: Required

```
{  
  // Request body schema
